Anastassios **Nanos**

Chief Scientist & Co-founder, NOFire AI · Systems Researcher

Office 159 Fortuna House, 88 Queen Street, Sheffield S1 2FW, United Kingdom

(+44) 7428318494 | info@ananos.co.uk | ananos.co.uk | ananos | ananos | @anan0s

Research Interests

Hypervisor technologies, Systems Software, Unikernel Frameworks, Lightweight workload deployment, I/O Virtualization, Orchestration, Hardware Acceleration, System support for Machine Learning & Artificial Intelligence, Sandboxing and isolation of AI agent workloads.

Skills

Programming	C, python, bash, Go, Rust, C#
Linux Kernel Programming	Device Drivers (Block/Network), Virtual Memory Management, x86 and ARMv7/8, SoC bootstrap
Virtualization	Xen (extensive experience with MM, scheduling, device/drivers integration), KVM (MM, virtio), Apple Hypervisor.framework (hvi microVMM), QEMU, Firecracker, Cloud Hypervisor
Unikernels	rumpkernels, unikraft, LKL, OSv
Orchestration	Kubernetes, docker
Container Runtimes	urunc, runc, containerd, docker, kata-containers, custom
Edge/Embedded systems	NVIDIA Jetson variants, Google Coral, RPi, Exynos (5422, 7420), Zynq-7000/Ultrascale+, KU3, LanaiXP
Interconnects	Bluefield, 10GbE, Infiniband, Myrinet/GM & MX, Open-MX
DBMS	MySQL, PostgreSQL, MongoDB

Technical & Language Skills

Operating Systems	Linux, Unix, Free/Net/OpenBSD, MS Windows
Systems Administration	Extensive experience setting up various Data Center related services such as: DNS (bind), WWW (apache, nginx), Mail (sendmail & postfix, dovecot), DBMS (MySQL/Postgres, MongoDB), Auth and Directory services (openLDAP & Heimdal Kerberos), VoIP (Asterisk), Networking (CISCO IOS, iptables, openVPN), Monitoring (collectd, graphite, munin & mrtg). Familiar with the setup and deployment of Cloud Computing platforms (OpenStack), Orchestration Frameworks (K8s) & HPC schedulers (SLURM).
Typesetting	LaTeX, MS Word
Languages	English (Fluent), French (Moderate), Greek (Native)

Experience

NOFire AI — *Remote*

Chief Scientist & Co-founder — *Jun. 2026 - Present*

- Leading technical strategy for runtime security and sandboxing in agentic AI systems. Architecting the platform's secure execution layer, with a focus on stateless, policy-attested runtimes for isolating AI agent workloads. Bridging open-source runtime infrastructure with enterprise-grade sandboxing to enforce strong isolation guarantees for untrusted code execution.
- The runtime infrastructure is open source: `https://brig.sh`, `https://github.com/brig-sh/hull` and `https://github.com/brig-sh/hvi-vmm`.

NUBIS PC — *Athens, GR*

Systems Architect — *Aug. 2020 - Present*

- Nubis PC is a startup aiming to facilitate application deployment in cloud & edge environments

Nubificus Ltd — *Athens, GR - Sheffield, UK*

Director & Systems Architect — *Aug. 2018 - Present*

- Nubificus Ltd is a software consultancy tackling complex virtualization problems. We explore lightweight virtualization solutions for edge, low power devices, aiming to bring Serverless and FaaS at the Edge.
- At Nubificus:
  - we enable hardware acceleration for Serverless Computing (`https://vaccel.org`).
  - we experiment with the systems software stack to reduce OS system overhead by enabling in-kernel task isolation using virtualization techniques (in-kernel VMM, `https://github.com/nubificus/hedge`).
  - we explore container runtimes to facilitate efficient workload placement in the Cloud and at the Edge, focusing on interoperability (`https://github.com/urunc-dev/urunc`).

Up2Metric S.A.
Athens, GR

Cloud Consultant
Sep. 2020 - Apr. 2022

- Container and Cloud consulting solutions for ML acceleration and orchestration.

Mellanox Technologies LTD
Athens, GR

Software - Systems Engineer
May 2020 - July 2020

- Design and develop a TMfifo virtual device to passthrough a physical QRNG device to a Bluefield PCIe SmartNIC.

Sunlight.IO Limited
Cambridge, UK

Researcher - Systems Engineer
Jul. 2018 - Apr. 2020

- Span out from the Emerging Technologies department of OnApp Limited
- Architected, implemented, and optimized a state-of-the-art hyperconverged hypervisor stack that achieves extreme storage and network performance.

OnApp Limited
Cambridge, UK

Researcher - Systems Engineer
Feb. 2015 - Jun. 2018

- Conducted research in emerging, power-efficient micro-server architectures on scalable network and storage IO, and energy-driven resource management in cloud architectures.
- Additionally, I was involved in architecting and implementing low-level hypervisor and OS mechanisms in the context of EU-funded projects (EUROSERVER, SHARCS, ACTICLOUD, SUPERFLUIDITY, NGPaaS).

Up2Metric S.A.
Athens, GR - Sheffield, UK

Software Engineer
May. 2016 - Sep. 2016

- Ported a computer vision algorithm to provide Augmented Reality annotation to staircases for Otolift core products.

Computing Systems Lab, NTUA
Athens, GR

Post-doctoral Research Fellow
Jan. 2014 - Jan. 2015

- Worked on IO Virtualization, systems software for high-performance I/O in virtualized environments, communication architectures for clusters, and scalable storage architectures based on clusters.

Junior Researcher
Apr. 2007 – Dec. 2013

- For the purpose of my PhD thesis, I worked on scalable block-level storage systems, communication architectures for clusters, custom 10gigE interconnection frameworks and I/O Virtualization.

Senior Unix/Linux Administrator
Apr. 2007 – Dec. 2013

- Maintained, administered and supported the lab (10-20 grad students, faculty members and visiting staff) providing services such as: DNS, WWW, Mail, VoIP and DBMS. From Sept 2011, my role was mostly advising the systems administration team.

Maxeler Technologies Ltd
London, UK

Intern
Sep. 2011 - Mar. 2012

- Worked on porting the company's custom FPGA boards to virtualized environments. As my task was completed quickly, I joined the hardware group working on the company's new product line (MPCX), doing performance evaluation at first as well as kernel developing for the board's interface driver and the networking stack (Infiniband).

Mist.io Inc
Athens, GR

Cofounder and Systems Engineer
Jan. 2012 - Jan. 2015

- Design, develop, deploy and maintain the company's product.
- Mist.io is about cloud server management, monitoring and automation across multiple cloud providers from any web device. Mostly develop in python, Javascript and bash.

Unweb.me Ltd
Athens, GR

Systems Engineer
Jan. 2011 – Dec. 2013

- Served as a systems engineer, deploying, administering and maintaining the company's infrastructure both on bare-metal servers (co-located) as well as cloud servers (mostly Amazon EC2).

Computer Center, ECE, NTUA
Athens, GR

Senior Unix/Linux Administrator
Oct. 2005 - Sep. 2010

- Setup the entire lab (25-30 workstations, 5 servers), migrated from Solaris-SunOS 4.3 to Debian GNU/Linux, and maintained the lab which featured a fully autonomous setup, able to provide the necessary software for students to work on ECE school's projects.

PC Systems S.A.
Athens, GR

Unix Support Engineer
May 2004 – Sep. 2004

- Served as backend support for the company's clients mostly Solaris and some Linux-based setups.

Small accounting business
Athens, GR

Linux/Windows Administrator
Sep. 2001 – Sep. 2006

- Maintained all workstations (5) based on Windows 95/98/XP, migrated the server from Novel Netware to Windows server and finally Linux. Provided support for the integration of commercial software suites specific to the business (accounting) as well as general purpose software (network file sharing, scanning/printing etc.).

Freelance *Athens, GR*

Web developer *Sep. 2002 – Sep. 2005*

- Built small sites (static/dynamic) using HTML, PHP and mySQL.

Education

NTUA (National Technical University of Athens) *Athens, GR*

Ph.D. in Computer Engineering *Dec. 2013*

- Thesis title: Efficient I/O Device Sharing in Virtualized Environments

NTUA (National Technical University of Athens) *Athens, GR*

Diploma in Electrical and Computer Engineering *Sep. 2006*

- Thesis title: Design and implementation of a system transferring data from storage devices to Myrinet networks bypassing the memory hierarchy

URUNC: A Unikernel Container Runtime — *Bilbao, Spain*
Open Source Summit Europe — *Sep. 20, 2023*

Hardware acceleration for Unikernels: A status update of vAccel — *Brussels, Belgium*
Microkernel and Component-based OS devroom, FOSDEM — *Feb. 5, 2023*

vAccel: Interoperable Application Hardware Acceleration — *Bordeaux, France (Virtual Event)*
DUAC: 2nd International Workshop on Deployment and Use of Accelerators, ICPP — *Aug. 29, 2022*

Interoperable Hardware Acceleration for Serverless — *Berlin, Germany*
OpenInfra Summit — *Jun. 7, 2022*

Hardware accelerated applications on Unikernels for Serverless Computing — *Brussels, Belgium*
Microkernel and Component-based OS devroom, FOSDEM — *Feb. 5-6, 2022*

ML inference acceleration for lightweight VMMs — *Brussels, Belgium*
Virtualization and IaaS devroom, FOSDEM — *Feb. 6-7, 2021*

Lightweight Hypervisors in the Cloud and at the Edge — *Brussels, Belgium*
Virtualization and IaaS devroom, FOSDEM — *Feb. 2-3, 2020*

Systems software for HPC — *Bilbao, Spain*
Convergence of Big-Data Analytics, Cloud, and High-performance Computing with EVOLVE, HiPEAC CSW — *Oct 30, 2019*

Unikernel Support for NFV-like Applications on Xen ARM 64bit — *Budapest, Hungary*
Design Session, Xen Summit — *Jul. 2017*

Hypervisor support for emerging scale-out/scale-up architectures — *Frankfurt, Germany*
VHPC 17, ISC-HPC 2017 — *Jun 22, 2017*

High-performance I/O in Virtualized environments — *Heraklion, Greece*
Invited Talk, CARV group, FORTH-ICS — *Nov. 2013*

I/O in Virtualized environments — *Berlin, Germany*
Invited Talk, WBI seminar, Humboldt University of Berlin — *Jun. 2013*

Experimenting with I/O data paths in Virtualized Environments — *London, UK*
ASPLOS 2012 Doctoral Workshop — *Mar. 2012*

High-Performance I/O in Virtualized Environments: A Networking Perspective — *Paris, France*
Eurosys 2010 Doctoral Workshop — *Apr. 2010*

System-level Support for Heterogeneous Architectures — *Cambridge, UK*
Poster in ARM Research Summit — *Sep. 11-13 2017*

Towards an HPC I/O framework for clusters of Virtual Machines — *Fiuggi, Italy*
Poster in ACACES 2011, HiPEAC summer School — *July 10-16, 2011*

Deploying MPI applications in a cluster of Xen VMs: A Networking Perspective — *Terrassa (near Barcelona), Spain*
Poster in ACACES 2010, HiPEAC summer School — *July 11-17, 2010*

Message Passing in Xen VMs — *New Orleans, Louisiana, USA*
Poster, Cluster 2009 — *Sep 2, 2009*

Program Committees

2012-Present	**Co-chair**, Workshop on Virtualization for High-Performance Cloud Computing	*VHPC @ EuroPar, SC, ISC*
2015	**Co-chair**, Workshop on Dependable Parallel, Distributed and Network-Centric Systems	*DPDNS @ IPDPS*
2013	**Co-chair**, Workshop on Middleware on HPC and Big Data systems	*MHPC @ EuroPar*
2019-2021	**TPC Member**, Containers and New Orchestration Paradigms for Isolated Environments in HPC	*CANOPIE-HPC @ SC*
2019	**TPC Member**, IEEE/ACM International Symposium in Cluster, Cloud, and Grid Computing	*CCGrid*
2015 – 2016	**TPC Member**, Workshop on Dependable Parallel, Distributed and Network-Centric Systems	*DPDNS @ IPDPS*
2015	**TPC Member**, IEEE 4th Symposium on Network Cloud Computing and Applications	*NCCA*
2015 – 2017	**Shadow PC member**, European Conference on Computer Systems	*EuroSys*
2008 – 2010	**External Referee**, Workshop on Communication Architecture for Clusters	*CAC @ IPDPS*
2008	**External Referee**, International Conference on Parallel Processing	*ICPP*
2008	**External Referee**, International Forum on Next-Generation Multicore/Manycore Technologies	*IFMT*

Honors, Grants & Awards

2025	**EU Horizon Europe open call**, NEPHELE 2nd Open Call, ”DROP”, NBFC: €110k, PI-100%
2025 – 2026	**EU I3 project**, ”AMBITIOUS”, Budget: €6.27M, NUBIS: €85k (EU €59.5k), PI-100%
2024 – 2027	**EU Horizon Europe project**, ”TEXTaiLES”, Funding: €3.62M, NUBIS: €353.9k, PI-100%
2024 – 2027	**EU Horizon Europe project**, ”EMPYREAN”, Funding: €4.67M, NUBIS: €299.8k, PI-100%
2023 – 2025	**EU Horizon Europe project**, ”DESIRE6G”, Funding: €6.21M, NUBIS: €356.6k, PI-100%
2023 – 2026	**EU Horizon Europe project**, ”MLSysOps”, Funding: €5.71M, NUBIS: €480.2k, PI-100%
